## About This Year's Theme

IFPE dedicates this year's conference to the theme *The Reach of the Mind*, an evocative and timely subject which introduces the intersections of relational neuro-biology and inter-subjectivity. In its long history, the mind-body discourse has often been viewed from artistic, spiritual, philosophic and scientific points of view. This conference goes beyond dualism to a dialectic interplay and provides a forum for an interchange among all perspectives.

## About IFPE

Founded in 1991, the International Federation for Psychoanalytic Education has evolved into a forum for people, from a wide range of disciplines, who share an interest in psychoanalysis. Membership is open to persons and organizations who express a self-declared interest in psychoanalysis.

Your donations are welcome and tax-deductible either to the IFPE General Fund or IFPE's International Outreach Fund. IFPE is a non profit 501 (c) (3), charitable organization.
